

SC/PR-106L

STAND ALONE CONTROLLER

Reader/Stand Alone Controller With Keypad

Main features:

- 128 Users Database
- PIN code or proximity card entry
- Quick Installation
- User friendly operation
- RTE optional input
- Alarm output
- Door contact optional input

Technical specification:

Operating Voltage:

12V-14V, DC, 1A regulated power supply is required

Max. Consumption current: 100 mA

Lock maximum current: 0.7 A for n/c and 1.0 A for n/o locks

Lock Operating Time: From 0 to 255 seconds

Door Operating Time: From 0 to 255 seconds.

Exit time when security mode is enabled: From 0 to 255 seconds

Maximum users quantity: 128 users, divided into 4 categories

RF Transmission to Key: 125KHz

Detection Distance: 5cm Typical
